

Rockwell Parts

Rockwell Parts - AxleTech International is a premier dealer in the globe of specialty vehicle drive-train systems and parts along with off highway vehicles. The company prides itself on being its clients' preferred supplier. AxleTech strives to exceed and meet their customers' expectations for technology, delivery, quality and service. They believe in working in an environment which encourages the utmost integrity with empowered teamwork, together with a unremitting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious business and providing a safe environment for their employees to work in. What's more, they have implemented several programs in the company to be able to help convey these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whatever comments or questions, as they are glad to promote and share this policy with a greater understanding of their efforts. They are extremely dedicated to preserving and improving the natural environment. AxleTech has an EHS program that not only protects the environment but which even actively protects their employees and neighbors as well.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles for both military and commercial applications. These applications vary from airport ground support to construction equipment. AxleTech specially designs axles to meet particular application demands. They have over 1000 various axle specs within their present offering. With more than one hundred years of experience and history, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The company is well known in many commercial and military applications. They provide complete axle assemblies utilized for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have added details which can be found in the "ISAS" product selection.
